

GOOD CROP CONDITIONS

Elevators Kept Busy

Local crop conditions continue to be highly satisfactory and encouraging compared with first reports and elevators have been busy early and late receiving the local grain.

It is a trait in human nature that we are never totally satisfied with the results and in this instance business men and farmers alike are discouraged at the low price obtained for the products. However the fact remains that the farmers in this locality are better off than in many sections, particularly Saskatchewan and parts of Manitoba.

Many farmers are obtaining number one grade again showing that Champion, if weather conditions are right, can produce the best grade and heavy yields.

'JOCK'S WAGGIN' TONGUE

Vol. 3 Thur. Aug. 31 1939 No. 30
Jock McIntyre, Editor

There have been a lot of suggested reforms some good and plenty not so good but in our modest opinion what the world needs most is dollar-a-dozen golf balls, a straw hat that won't roll less water in canned tomatoes, and more apples in applesauce.

It is good business when both parties to a transaction benefit. For instance when you buy hardware from us you secure the hardware which you need and we secure the money we need.

Geo Harper and family are around the district looking after their harvest operations.

Why crank your car when you can get a 13 plate 100 ampere Globelite battery in a hard rubber case for so little.

Believe it or not, many people in the hospitals now were waiting for a street car.

We have only a few left of those extra light weight scoops. They make play of shoveling wheat. "Oh Yeal"

Howard Smith Jr. is around for the harvest. Howard is looking good and says its good to be back.

Our grease gun, grease and filler pail deal is still on and its going good too. Get yours now.

Fly tox in bulk its cheaper that way you know.

Henry Shanbells is at home again and says he is feeling fine.

We are and have been of the opinion that most of the fields have a pleasant surprise for their owners and results are bearing this out.

Those responsible for the false fire alarm the other day sure showed that there is lots of life still left in the "old natives."

ENLISTMENT OF WOMEN

Organization Seeks To Make Possible Service to Empire By Women

The Chronicle has received a sample questionnaire being circulated among the women of Canada with respect to service in an emergency and should war come. The editor of this paper would be pleased to explain details to any local ladies or have ones in the different districts appointed to give special attention to this matter.

There are four objects to the survey. One is for the reception of adults and children in Canada. There may be many in the old land unfit for service who could be taken care of here. Who will take them?

Second the replacement of men in industry by women best qualified and trained to take their positions, so the men could make munitions and otherwise take part in the effort to supply the mother country with needful help.

Thirdly there will be those who wish to enlist for active service and provision must be made for such. That is in the last war women doctors had to join the Imperial force to gain recognition. There should be Canadian units for medical welfare, recreational rooms, convalescent camps or such like and this can only be done by united effort.

Fourth If we are spared from war, the survey makes possible a statement on unemployment among women and the potentialities of women of our nation.

As stated above The Chronicle feels obliged to bring this matter to the attention of women readers.

British Empire Urges Peace

Backed By World Opinion

No Problem That Cannot Be Solved By Negotiations

Last week end was one of the most momentous that Canadians have experienced since the Great War for it appeared as if peace hung by a thread. Even as we go to press the situation is exceedingly grave but it would appear that Hitler has realized the force of German armies may not be as strong as a world public opinion. Even his ally Italy is seeking a peaceful solution to the problems which face the European countries.

While the dispute is over the free city of Danzig and the Polish Corridor, democracies take a broader view of the matter and as put by Sir Anthony Eden "We cannot be faced with demands at the point of a loaded pistol or in other words Germany wishes to control Europe. Britain in her peace talk has said that she is willing to discuss an adjustment on a wide scale but will not do so while one of the subjects is being threatened by force. King Leopold of Belgium and Queen Wilhelmina of the Netherlands have offered their services as mediators and this is acceptable to Britain, but Germany while not accepting same out right has expressed appreciation for the offer. Negotiations would not only cover the subject of Poland but Germany and Italy demands for more territory.

From a Canadian point of view developments may be briefed thus. Federal Cabinet has proclaimed the War Measures Act which gives the Government full power to control transportation, communication and

property as it may be affected. Already a naval board has been set up and control over ship is now in the hands of the Board. This applies to the ship only and clearance orders must be had before the ship can be moved. The defence minister Hon Ian MacKenzie has had his staff working night and day and every point in Canada likely for attack is being guarded. Men have been secured from the permanent force and volunteers from the militia. Even at Lethbridge and Calgary trains left the stations carrying soldiers, bringing home to all citizens the thoughts of the last war. Power plants, bridges and public buildings are being guarded. A meeting between Premier Hepburn the Quebec Government and Defence minister MacKenzie settled the responsibility for guarding all power and public utility plants in those eastern provinces and it is understood similar action is being taken in Alberta by military officers direct.

While his cabinet were in unanimous agreement as to the policy pursued by Britain and the need for preparing local defenses Prime Minister King felt that some effort might be made to seek peace so he despatched messages to Germany, Italy and Poland pleading for a peaceful solution. Premier Mussolini answered Premier King cable read in part

"The people of Canada are of one mind in believing that there is no international problem which cannot be settled by conference and negotiations. They equally believe that force is not a substitute for reason, and that the appeal to force as a means of adjusting international differences defeat

Barons Old Timer

Dies at 84

Mrs Erdman was active in Community

The funeral of Mrs. Mary Erdman, aged 84 for 35 years a resident of Barons district was held in the Barons United Church on Sunday, with Rev. H. C. Woods in charge. Mrs. Erdman passed away on Friday after a lengthy illness.

Hymns chosen were Abide With Me and Forever With The Lord. In his address Rev. Woods stressed the beauty of the life lived by Mrs. Erdman strong in the faith of an eternal life.

There are left to mourn one son Gust Erdman, of Barons, five daughters, Mrs. Jan Kotkas of Barons Mrs. M. Silberman Barons, Mrs. Salmon in Russia Miss Natalie Erdman a missionary in Iraq and Miss Charlotte Erdman of Oshawa Ontario.

Mrs. Erdman was born in Estonia, came as a small child to Crimea from where she and her husband, the late Jacob Erdman, came to the U.S. in 1902 and to the Barons district in 1904 where they homesteaded a mile west of Barons.

Mrs. Erdman was a splendid example of the Christian life and her influence was felt in the Community through her interests were always in home and family.

Beautiful floral tributes banking the casket testified the esteem of the community. Pallbearers were Victor and Oscar Erdman Rudolf Kotkas, Walter Silberman, grandsons of the deceased and Gus Erdman a nephew. Martin Silberman a son in law. Internment was made in Barons Cemetery by the side of her late husband.

Mr and Mrs. Erdman gave the land for the cemetery to the town of Barons.

Carmangay

Wm. Daymon our local station agent is spending his vacation at Waterton Lakes where his wife and family have been enjoying their holidays at the Daymon cottage.

The North Priscilla club next Wednesday Aug 30 the at the home of Mrs. Gust Greene.

The Sunday school and congregation of the United Church held a picnic Wednesday afternoon.

"Union Pacific" will be the on the screen next Monday. Mrs. Malony was the lucky winner of the second draw for \$10.00

Mrs. W. Thomson of Edmonton is visiting Mrs. John Hubba for a few days before going on to relatives further south.

Royal Canadian Pacific Engine at World's Fair

An impressive feature in the "Railroads on Parade" pageant at the New York World's Fair, Canadian Pacific Railway Locomotive 2850 is attracting marked attention. The Royal decorations it still carries recall the important part it played in the westward passage across Canada of Their Majesties King George VI and Queen Elizabeth and make it the outstanding engine on exhibit.

Locomotive 2850 impresses at four daily shows as a powerful, efficient piece of machinery. It is, above everything, the engine

which hauled the royal train from Quebec City to Vancouver, a distance of more than 3,000 miles, the longest continuous run ever recorded by a passenger train.

At the end of that run, Locomotive 2850 worked its way back to Montreal in regular duty, completing practically 6,000 miles of continuous service. The Canadian Pacific Railway announced that the entire trip had passed without engine trouble of any kind; that the locomotive was still in perfect condition and could, if necessary, be turned right around and operated back

to the Pacific Coast again. It is one of 60 engines of the same series capable of a similar performance.

Four times daily during August the cyclopean Canadian Pacific locomotive goes on display at New York; and four times a day spectators echo the words of Her Majesty Queen Elizabeth when she inspected the locomotive during the tour: "Isn't it a lovely engine?"

Standing on the engine in this picture are the "Gay Lassies of Yesterday and Today," members of the cast of the pageant,

rather than furthers the ends of justice. They are prepared to join what authority and power they may possess to that of the other nations of the British commonwealth in seeking a just and equitable settlement of the great problems which nations are faced.

- Editorial -

Labor Day

Next week-end Labor day will be observed and we suggest that the war situation should not overshadow the thought of humanity and the need for solving of our labor difficulties.

Whether it be monetary reform, the introduction of machinery or the various other causes given, the fact remains that the labor question is anything but satisfactory. Even in our own fair land there has been men out of work despite the fact that there could be all kinds of improvements carried out.

We are firmly convinced that no legislation which one can introduce, even a change of our whole economic system or form of government, can solve the problem but rather it is a realization in the hearts of men that we are all brothers and that our dealings man to man should be on a humanitarian basis can we hope to have a code for labor which will be of any use. It is therefore fitting that churches devote one Sunday a year to the consideration of this problem.

School Opens

On Tuesday next the schools of the district will open their doors for the new term and it is hoped that there will be a good attendance the first day. Like most enterprises much depends upon the start which is made for this reason, if for no other, we suggest that parents should see that the pupils attend the opening classes.

In many of the local schools served by this paper a change in staff of teachers has taken place. There will be new methods of management and teaching in the schools. No two teachers have the same approach or personality. We bespeak for these teachers the full co-operation from the pupils the parents and the school boards. Teachers have been engaged for their experience and it can be assumed are going to make their term most successful. They are entitled to be given such assistance as will make possible attaining of their high purposes.

Study like teaching is an art which requires earnest work, so the pupils too, as they take up their studies for the year should resolve to bend every effort to make a success of their term just beginning. There is a time for work and a time to play, we are told and pupils cannot learn such lessons too early in life. Put as much energy into your study as you would your play and you can enjoy the recreational periods far more.

Unity

Peace or war the Canadian people must maintain an attitude of calm preparedness for any eventuality. All must put full trust in the Federal cabinet so that their efforts to safeguard our interests may not be hindered. It will be the duty of our elected representatives meeting in Parliament to decide the exact nature of our part in the conflict, if it comes.

Where To Find Exhibits at Canadian National Exhibition

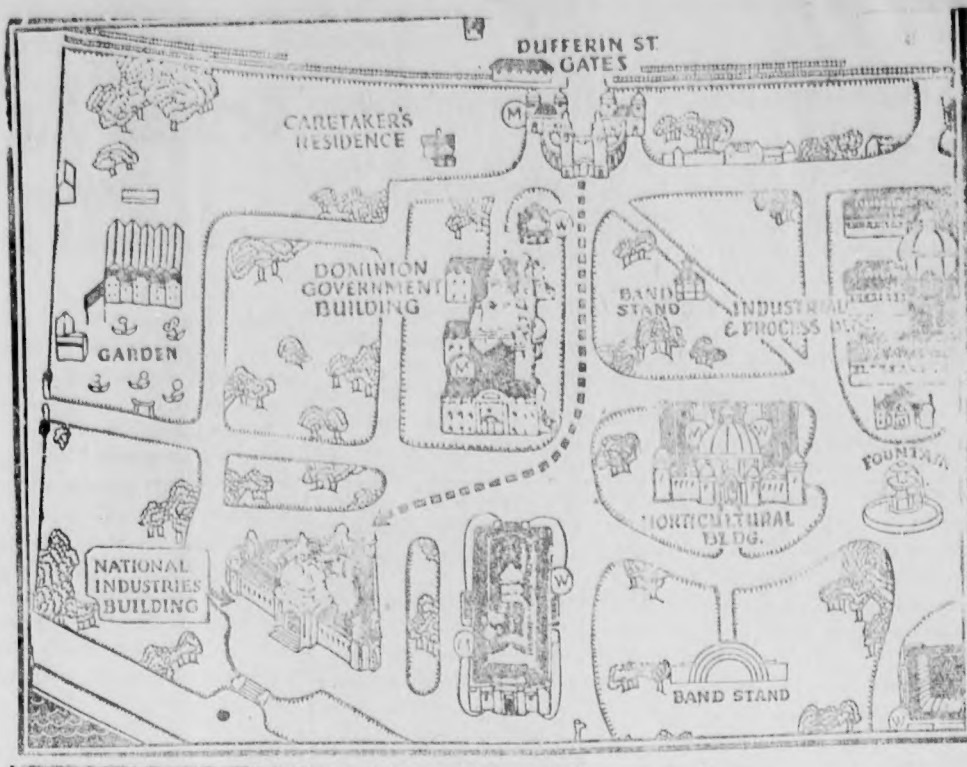

Diagram above shows the exact location of the Industrial Building at the Canadian National Exhibition held from August 26 to September 9 at Toronto where the Star's five Exhibits, Royal

Murals, Royal Movies, Wirephoto, Television, Facsimile, broadcasting a newspaper will be shown. All these as well as the enumerable other exhibits are all free and a cordial welcome awaits you.

"All I have to say is...."

"We farmers would never have gained a Wheat Board if it had not been for the Wheat Pool."

"And we farmers will never hold the Wheat Board if the Pool loses its strength and influence. I know, too, that this strength stems from grain deliveries from farmers like me."

"I know perfectly well what I am doing when my wheat goes to Alberta Pool Elevators. I KNOW I'M RIGHT."

"Everyone knows that Alberta Pool Elevators give exceptional service, not only to the individual farmers, but to the entire farming community."

"And if 20 per cent more Alberta farmers, or even 10 per cent more, would patronize Pool elevators in a short time the debt to the government would be wiped out and the Pool system would be operating on a patronage dividend basis."

WEDDING

Roberts and Williams

A wedding of interest to all readers took place in Lethbridge Aug. 20 at the home of Mr. and Mrs. J. M. Williams when their second daughter Dora Grace became the bride of Guy S. Roberts of Calgary only son of Mr. and Mrs. A. S. Roberts of of Barons. Ceremony was performed by Rev. Keith McMillan of Southminster church in the presence of immediate relatives. The bridal pair were attended by Miss Lorita Williams, sister of the bride and A. Calhoun of

Lethbridge, brother in law of the bride Miss Beverly Roberts sister of the groom sang two numbers I love you truly and Until.

The bride was an attractive picture in an imported model of remill shade novelty crepe with matching hat and accessories. She wore a corsage of tubeman roses and sweet peas in shades of mauve. Bridesmaid wore a frock of navy blue sheer with white accessories and a corsage of salmon pink roses. The happy couple will live in Calgary.
